Participation in the mobility			
<i>*Please attach the full list of participants with names, contacts, signatures, etc.</i>			
		Number of participants directly involved in the project	Number of invited guests e.g. spokesperson
COUNTRY	Spain	3	0
	United Kingdom	4	0
	Romania	5	0
	Poland	5	0
	Slovakia	4	0
TOTAL:		21	

2. Detailed information on the mobility:

2.1. Summary

- *Please describe in a few sentences what was happening during the mobility (Explain all the activities)*
- *Attach the timetable of the mobility*

The meeting took place at the agreed time and location according to the agreed agenda circulated beforehand. All partner organizations were present on the meeting and they contributed to the meeting on high level.

As the theme of the meeting was the folk costumes, every partner prepared a presentation about their countries' folk costumes and brought some clothes or part of the costumes with themselves. These presentations encouraged open and clear communication. The participants were interested in the topic and shared their experiences, views with each other. We organized a handicraft workshop where they could acquire some new competences. They had the opportunity to see some good practices on local level as well:

- ✚ we visited the local ethnographic collection in Bruty which was collected by the women working in the Új Nő Club who try to preserve old clothes, furniture, working tools, things in this way
- ✚ the participants could meet on the folk costume party organizations running folk groups trying to preserve the traditions, dances, songs of our ancestors and they could see how they co-operate with each other
- ✚ we visited the house of folk traditions in the neighbouring village to see how they preserved an old, fully furnished peasants' house and how our grandparents lived
- ✚ we met the founder of the museum of dolls in folk costumes, Eszter Szobiné Kerekes who is the president of the organization „Kultúráért és Turizmusért Társulás” and the participants could see how the folk costumes are preserved on the dolls

2.2. Aims and objectives

- *Please describe the aims and objectives of the mobility as planned before its realization*

The objectives of the meeting – which were achieved - were the following:

- ✚ to introduce the folk costumes, traditions, culture of Slovakia to the participants
- ✚ to get to know other participant countries' folk costumes as well
- ✚ to share experiences, views and discuss the topic
- ✚ to give possibility to the participants to gain new competencies
- ✚ to visit some local organizations to see how they preserve the traditions, to show some good practices

- *To what extent were the aims and objectives of the mobility fulfilled?*
- *Which of the aims and objectives of the mobility were/ were not fulfilled? Give the reasons if appropriate.*

The objectives of the meeting were fully achieved.

2.3. Results of the mobility

- *Please describe the outcomes of the mobility (decisions taken, dates of the future mobilities as agreed on, division of roles for the project, methods of future communication, etc)*

As it can be seen we tried to involve into the realization, implementation of our meeting as much local people and local organizations as we could. For us it was important to introduce them the Grundtvig program and the possibilities which it provides. Not only our members but our partners also had the possibility to introduce themselves during the meeting.

From the point of view of the whole project: the leaders of each country's group spoke about the results of the project and agreed on the content of the e-book. All partners have to send the material needed to the lead partner until 15th April.

The next mobility will take place in the UK and the partners should find the appropriate flights and their participants and send the information to the British partner as soon as possible.

2.4. Evaluation

- *Please describe how was the mobility evaluated (by all the partners jointly or individually)*
- *Was the mobility successful? Why / why not? Give reasons.*

All participants of our partners filled-in a 2 page questionnaire about the circumstances, about the program, what they learnt, etc.

In summary, the meeting in Slovakia was successful and provided useful result. The program was introduced to a lot of people, the project was disseminated widely, a lot of local people were involved, the expectations of the participants were fulfilled.

2.5. Recommendations/ suggestions

- *Please add any comments or suggestions as connected with the project, mobility, communication, financial matters, etc. (can be filled in by all the participants of the mobility).*

-

PART II.

1. Documents:

Please attach the following documents:

- *List of participants*
- *Schedule of the meeting/mobility*
- *Any other document needed later on for the final evaluation of the project.*
